Minutes for the 5th Meeting in Mysłów, Poland

27th May 2019, Monday

Between 27th -29th May, 2019 the teachers from partner countries' schools participating in the Erasmus + 'Our school our playground' project from Greece, Spain, Italy, Romania, Bulgaria, Cyprus and Turkey took part in the 5th project meeting in Poland. On May 27th they arrived to our school in Mysłów in the morning and they were greeted warmly by the headmaster. After a short meeting, the guests were invited to a show prepared by our students. The students showed how they can sing, play musical instruments and dance. Because our school is a Catholic school, our students with teachers Mrs. Kolasa and Mrs. Stemplowska prepared a performance called, 'Holy spirits come'. At the end, our guests watched the presentations titled 'Do you remember...'

During the coffee break our guests could try typical traditional Polish cakes: cheesecake and apple pie. After that, the guests met with our students of two grades during their Maths class and their teacher Mrs Aneta Krupa. The students had an opportunity to ask them a few questions. The guests were interested in the education system in Poland as well as the documentation as for example the register and the scale of grades.

The next item of the visit was the presentation of partner countries. The presentations included explanations of the games that were prepared during the last 2 months in their schools and applied by teachers from partner countries. Films and some photos of the activities were also shown, and further explanations were provided if necessary. As it was the last project meeting, project coordinator Maria Skiadelli summarized the activities of all

partner schools and we discussed final review of the project's outcomes and reports. Then the certificates, attendance sheets and all necessary documents were given to all partners.

In the evening, all participants took part in a welcome dinner together with Polish delegates.

28th May 2019, Tuesday

On that day, our guests went on a trip to one of the most famous places in Poland, namely to the Salt Mine in Wieliczka and then to Krakow, the former capital of Poland. They had the opportunity to see there the richness of Polish culture and architecture and try Polish traditional dishes.

29th May 2019, Monday

The Visitors visited the death camp at Auschwitz – Birkenau. If you want to know the history of Poland, you should see this place and experience the tragedy that affected millions of people during the World War II. That is why our guests also wanted to see the place.

In the evening there was a farewell dinner to spend the last time in a project group and say good-bye to all the participants and exchange souvenirs.
